These patents and publications were cited in a third party request for *ex parte* reexamination that the Patent and Trademark Office refused to accept for processing for failure to comply with 37 C.F.R. §1.510. The third party requestor may not submit another request, and the patent owner desires to ensure that the file of the patent include these patents and publications. For these reasons, the patent owner now makes this submission.

The pertinence and applicability, or lack thereof, of the patents and publications is addressed in a brief filed by the patent owner in litigation involving this patent. The patent owner submits that brief, along with the third party request for *ex parte* examination that the Office refused to accept.
